

DXD-100/200F Fully-automatic Powder Packaging Machine

This is used for automatic packaging powder materials such as flour; fine sugar milk powder; gourmet, food additive, pesticide, washing powder and Chinese medicine.

Features

One back seal, three side seal and four side seal A packaging operation data and adjustment on the display screen intuitive display, direct operation A photoelectric control device is assembled to ensure the integrity of the packaging bag pattern Automatic bag making, measuring, filling, sealing, cutting, counting and printing batch number

Technical Parameters

Packing speed	15-60包/分(bags/min)
Bag-making size	L: 60-250mm W: 60-180mm
Filling range	50-850ml
Film width	140-400mm
Packing materials	OPP、CPP、PET、PE 等复合材料
Film thickness	0.04-0.08mm
Film diameter	Max.320mm
Power supply	AC 220V 50/60Hz 2.5kw
Overall dimensions	1100×800×2150mm
Weight	400kg
