

CXM Bottle Feeding Turntable Machine

Our bottle feeding turntable is very flexible, we can customize different diameter based on your products and needs, such as 700mm, 900mm, 1000mm, 1200mm and others.

The position of feeding bottles parts also can be customized, for example front, back, left...

Also can be customized our bottle feeding turntable as below picture shows:

This machine with two functions: collect bottles then feed it

Such as collecting bottles from labeling machine and feed it to cartoning machine.

This way is more stable, no bottle will fall down when the equipment is running
