

LT-10AF Automatic Single Head Piston Filling Machine

The single head filling machine is suitable for small and medium-sized enterprises such as hospital preparation rooms, laboratories, etc. to produce in small batches. The contact parts are made of stainless steel and are easy to load and unload. The filling volume ranges from 5-1000ml, and the corresponding specifications of the filling machine can be selected to achieve filling. The machine is lightweight and can be placed freely. The filling volume can be finely adjusted to meet different user requirements.

Application:

Suitable for cream, shampoo, essential oils, honey, etc. Widely used in industries such as cosmetics, food, chemical raw materials, etc

Technical Parameters

Model	LT-10AF
Voltage	220/110V
Power	1000W
Filling speed	10-30 bottles/min
Filling range	6-60ml,10-120ml,20-250ml
Filling accuracy	±1%
Hopper	40L
Air pressure	0.5-0.7Mpa
Size	About 2000*1650*780mm
Weight	About 150kg
