

GPP-50A Automatic Sealing and Strapping Machine

The automatic sealing and strapping machine GPP-50A is a packaging machine that integrates the automatic sealing and the binding procedures. It can be used with the automatic packaging line, It can realize automatically seal the tape, and the process of multiple banding.

FEATURES

- Sealing and bundling are carried out at the same time. It is not only fast, but also efficient and small.
- This machine adopts PLC automatic program control, which is easy to operate and has low failure rate.
- Using photo electricity to detect the binding position of the carton, and one to three automatic bundling processes can be realized
- It can be used in stand-alone operation, and can also be used with automatic packaging line

SPECIFICATIONS

MODEL	GPP-50A
Packing speed	18m/min
Carton Size	L150- \times W150-500 \times H150-500mm
Power Supply	380V 50/60Hz 3Phaze
Power	1500W
Adhesive Tape Width	55-72mm
Air Consumption	/
Air Compressing	/
Table Height	720mm
Machine Dimension	L1700 \times W1420 \times H1550mm
Machine Weight	400KG
