

## RCGF32-24-8 Glass Bottle Juice Production Line

The glass bottle juice production line is used for glass bottle hot filling and production of mango juice, strawberry juice, blueberry juice, apple juice, orange juice, etc,. This glass bottle juice filling machine integrates washing, filling capping together. This glass bottle juice filling machine is scientific and reasonable design, simple operation; is the first choice equipment for hot filling beverage production.

The glass bottle juice production line adopts clip bottle neck suspension process design, and uses the filling valve lifting, can satisfy the requirement of a 95°C hot filling technology. Filling movements is smooth, fast, high precision, reliable sealing, low material loss of functionality, and effectively avoid the secondary pollution of bottle opening. Simply replacing equivalent components, can realize conversion between different bottles.

### Parameter

Model	RCGF18-14-6	RCGF24-18-6	RCGF32-24-8
Rinsing heads	18	24	32
Filling heads	14	18	24
Capping heads	6	8	10
Capacity (b/h)	3000	6000	9000
Power(KW)	3.5	3.8	5.5
Dimension(mm)	2200×2100×2700	2800×2300×2700	3600×2500×2700
Weight(KG)	3500	4600	6500
