

TSGM-CW25L Chemical Oil Liquid Semi-automatic Weighing Filling Machine

Advantages:

1. High Precision ($\pm 0.2\%$ accuracy) with dynamic weighing technology, unaffected by viscosity, bubbles, or impurities.
2. Semi-Automatic Operation balances efficiency and cost, ideal for small-to-medium batches.
3. Dual-Speed Control (fast/slow) minimizes spills and ensures stable filling for thick liquids like oils, detergents, or chemicals.
4. Stainless Steel Construction and corrosion-resistant components for durability in harsh environments.
5. Auto-Tare & Adjustable Settings accommodate variable container weights and batch requirements.
6. Leak-Proof Design with vacuum suction to eliminate drips and ensure clean packaging.

Parameter

Item No.	TSGM-CW25L Single Head
Filling Accuracy	+0.5%
Filling Range	5-25KG
Capacity	5-10 pcs/min
Power Supply	220V,50Hz, <50W
Working voltage	AC220V 50 / 60Hz
Air Pressure	0.3-0.5MPa
Machine Size	90*60*130cm
N.W (KG)	120KG
Package	95*65*145 cm (including pump)
