

Automatic Tabletop Oral Solution Liquid Glass Vial 20mm Aluminum & Plastic Flip-off Caps Filling Crimping Machine Packaging Equipment

Main Feature

- ▶ Compact machine body saves working space and production cost, suitable for small scale production
- ▶ Can sort bottle, fill liquid, feed stopper and caps, crimp caps at one machine, all the working data is controlled by one PLC system, reduce production error.
- ▶ Equipped with peristaltic pump, the liquid only pass through filling hose during filling, this ensures packaging quality
- ▶ Can be customized for flip-off caps or the pure aluminum vial caps according to vial size

Parameter

- Machine power: 110/220V 50-60HZ 1kW
- Filling pump: Peristaltic Pump
- Max flow rate: 2.5L/min
- Recommend Filling Volume: 20-50ml(Customized)
- Working capacity: 20-30bottles/min
- Suitable bottle height: About 45mm-60mm(Customized)
- Suitable bottle diameter: About 22mm(Customized)
- Suitable bottle mouth: About 19.5mm(Customized)
- Suitable cap size: H=10mm* ϕ =22mm(Customized)
- Machine size: About 1450*850*1050mm(L*W*H)
- Machine weight: About 195kg
- Package size: About 1190*990*1120mm(Main Machine)+About 880*500*570mm(Vibratory Sorter)
- Package weight: About 196kg(Main Machine)+About 124kg(Vibratory Sorter)
