

AS-1000 Semi Automatic Liquid Sachet Packaging Machine

The Automatic Liquid Sachet Packaging Machine is designed to efficiently pack small volumes of liquid products into single-use sachets. Ideal for packaging items like soy sauce, vinegar, beverages, shampoo, lotion, and other fluid materials, it offers a compact and fully automated solution for food, cosmetic, and daily chemical industries.

This machine automatically performs film forming, liquid filling, sealing, and cutting—streamlining the entire packaging process and greatly improving production efficiency. It supports a variety of liquid viscosities, making it highly versatile for different applications.

Constructed from stainless steel, the machine meets food-grade hygiene standards and ensures long-term durability. The compact structure saves floor space, making it especially suitable for small and medium production lines.

With easy-to-use controls and reliable sealing performance, the automatic liquid sachet packaging machine helps businesses produce consistent, professionally packed sachets that meet market demands.

Technical Parameters

Model	AS-1000
Bag Length(mm)	50-150
Bag Width(mm)	40-150
Film Width(mm)	100-320
Packing capacity(ml)	50-500
Capacity(bags/h)	2000-2200
Power(Kw)	220V,380v/50 Hz 1.6Kw
Overall Size (mm)	880x760x1800
Weight (KGS)	270
