

JS-200YZD Automatic Rice Cereal Oatmeal Oat Flake Premade Pouch Packing Machine

The automatic 6 station granule doypack packing machine is suitable for packaging various granular materials in food, daily chemical, agriculture and other industries, such as: sugar, salt, MSG, dried fruits, coffee beans, nuts, beans, seeds, grains, popcorn, frozen food, pet food, etc.

Feature

1. The machine can automatically complete a series of processes such as bag taking, bag opening, coding, filling, sealing, and finished product output.
2. Equipped with a servo control system, it automatically adjusts the bag feeding and bag suction parameters according to the changes in packaging speed without manual debugging.
3. It adopts intelligent PLC control and the machine parameters can be adjusted through the touch screen.
4. The machine is equipped with an integrated acrylic material protective cover to ensure the safety and hygiene of the production process.
5. The whole machine is made of SUS304 stainless steel, with a frosted surface, which has better anti-corrosion and oil-proof performance and increases the service life of the machine.

Specification

Packing Speed	≤60 bags/min
Filling Range	50-1000g
Bag Length	≤260mm
Bag Width	70-180mm
Machine Size	1550(L)*1250(W)*1750(H)mm
Voltage	380V, 50Hz
Power	2KW
Machine Weight	400KG
