

Coarse Mill Pharmaceutical

Mill whole meal Pharmaceuticals, which is also called a crusher coarse crushing crusher for primary crushing, is used for the treatment of solid and rigid materials. This equipment can be used as the last stage in the process of micro Lathes, auto lathes. This equipment is well grinds materials that do not contain fibers which are not viscous and it is not important solid or soft. That is why this equipment is widely applied in medicine, industry, food and chemical industries.

Benefits:

Mill whole meal HuaMao pharmaceutical companies manufacturing stainless steel and has a horizontal crushing structure. It is characterized by compact design, ease of cleaning and low noise. Moreover, the installation is done in accordance with GMP standards.

Technical specifications:

Model	80	120	200	400	600
Performance	10-200	100-500	150-800	200-1000	500-1500
granule size inlet (mm)	<50	<100	<100	<100	<200
Milled granule size (mm)	0.5-20				
major axis speed (rev/min)	400			380	
Engine power (kW)	1.5	3	5.5	7.5	15
Weight (kg)	150	250	420	580	760
Overall dimensions (mm)	510×450× 980	650×700× 1200	720×850×1350	1200×1000 ×1450	1300×1100 ×1650
