

Automatic Bottle Filling Capping Machine AGSB-IC

The AGSB-IC series machine is modern design auto-filling machine. It is able to satisfy all of the requests in filling of rigid containers (tin-plate, PET, glass, jar, can) with powder or graininess product.

Specifications:

Model: AGSB-IC

- Bottle High: 50 ~ 220mm
- Bottle Diameter: 30 ~ 140mm
- Storing Program: 100
- Output Speed: Up to 50
- Filling Method: Volumetric
- Power (kw): 1.5 ~ 3
- Air Consumption: 1 ~ 2 NL
- Machine Size (L x W x H): 2,162 x 2,105 x 2,203mm

Features:

- Computer and touch display control.
- All production parameter are stored.
- Machine according to FDA / GMP standard.
- The filling solution is possible with volumetric auger, cup or exact Weighing machine.
- It's also possible with weight control device with feed-back function to ensure the consistency of the dispensing for whole production cycle.
- The bottle filling capping machine can also be linking with empty bottle feeder, and labeling machine as well as a fill automatic in line production.
