

YG-1 Automatic Capping Machine

- Accomplish Cap ordering, cap adding, cap pressing automatically.
- According to customer's different cap, design specialized capping way.
- Continuous capping at high speed.
- Protect caps from harm

Automatically adjust cap-feeding and cap-ordering state, reducing the friction of the collision between the caps and not damage the cap.

- Detection function

Technical Parameter:

Model	YG-1
Applicable	Common caps, protective ring caps, double caps, Spring caps etc.
Capacity	30-100 bottles/minute
Power supply	220V/50Hz 0.3kw
Air supply	0.6Mpa, 25l/min
Size	1850*800*1360mm
Weight	280kg
