

Rotary Washing Machine ECRW-01

This machine is belong to semi automatic rotary washing equipment, one cycle can put 18 pieces bottle on rotary table, meantime it can change the washing rotary speed by frequency control of inverter.

Features:

- Completely made of Stainless steel.
- Effective cleaning.
- Suitable for Different type and shape of bottles.
- Suitable for Glass, plastic and aluminum bottles.
- Simple change-over to different container sizes.
- Easy to operate and clean.

Specification:

- Interior Contact Part with Product: SUS 316 & silicone rubber
- Exterior Non Contact Part Material is Made of Stainless Steel SUS 304
- Rotary Motor: Motor: 3 ϕ 1/2HP
- First (Purified Water) Surge Pump: Motor: 3 ϕ 1HP
- Second (Distilled Water) Surge Pump: Motor: 3 ϕ 1HP
- First Water Filter: 5 micron 10"L
- Second Water Filter: 0.45 micron 10"L
- Air Drying Filter: 0.2 micron 10"L
