

Electric Heating Bottle Label Heat Shrink Tunnel Machine TPGP-403

Bottle label heat shrink tunnel machine is kind of new ideal packaging equipment, suitable for shrinking label packing for various goods, such as bottled beverage, chemical and other industries. After package, the products with perfect sealing, beautiful and clean surface. It can use films with various different materials, such as PVC, PE, PP etc

Description

- ▶ This machine has the advantages of high efficiency, low electricity, and long life, steeples speed regulating and stable transmission.
- ▶ Steam label shrinking machine is a special type, after shrinking; the bottle will not be out of shape, particularly suitable for shrinking label of mineral water bottles in various shapes.
- ▶ Bottle cap label shrinking machine adopt stainless steel electric heat pipe heating, hot air circulating shrinking machine. Suitable for adjustable height bottle sealing surface bottle cap label.
- ▶ Bottle Body label shrinking machine adopt stainless steel electric heat pipe heating, hot air circulating shrinking machine. Suitable for the bottle body contraction.
- ▶ Our company can produce various specifications or all kinds of shrinkage machines according to the customer request

Products Parameters

Model	TPGP-403
Voltage	380V /50-60HZ
Power	12.5KW
Tunnel size	L1500 x W350 x H150mm
(L x W x H)mm	
Max.Packing size(mm)	D110x 440H
Conveyor motor	AC90W/220V
Conveyor speed	0-10m/min
Max.loading	15KGS
Shrink film	POF, PVC, PP
Weight	90KGS
Dimension (mm)	L3200 x W550 x H 1850mm
