

F100B Automatic Three Edge Small Sachet Sealing Packing Machine

F100B Automatic Three Edge Small Sachet Sealing Packing Machine is specially designed for powder material auto-weighing filling and bag forming sealing. Widely applied in the market of chemical powder, food powder, additives, this machine unit has been accepted by customers for a long time.

Features:

- The bag making series adopts stepper motor subdivision technology, the bag making accuracy is high, the error is less than 1 millimeters, the two way controlled thermal sealing mechanism, the temperature control is more precise, the sealing quality is higher, the packing material is wider.
- The microcomputer bag long controller can set the length of the bag at any time without changing the parts, and the prefabricated technical number can be prefabricated, and the packing speed and the length of the bag are displayed.
- When the door is opened, the light point is not correct, the packing material is exhausted and overloaded, in order to ensure the stable operation of the machine, and the equipment has an automatic alarm function.

Specifications:

Machine Model:	F100B
Packing Type:	Back T Style Seal
Packing Material:	Powder Material
Weighing Range:	1.8-50ml or 20-100ml
Bag Size Range:	20-105mm (W) x 40-150mm (L)
Packing Speed:	40-60bpm
Power Supply:	AC220V 50Hz 1.72KW
Machine Size:	665 x 770 x 1580 mm
Machine Weight:	220KG
Working Temperature:	~°C
Packaging Film:	A variety of composite membrane packaging materials.

Options:

- Infeed & outfeed rotary tables
- Coding machine for data/batch printing
- Infeed conveyor
