Manual Over Wrapping OSA-380

The semi-auto model OSA-380 is good for hard square box. It adopts either shrinkable or non-shrinkable BOPP film to be folded on sides of box. It can have perfect packaging work without wasting trimming. Because of cheap price, it can save packaging cost & reduce labor cost. This machine is controlled by HMI, which is more human friendly without strict limitation by package sizes. The Auto Collator is an option to pack multiple products without needing box for cost saving.

Features:

- Feeding by conveyor: product is fed by conveyor to save working seconds & enhance efficiency. The low friction fur conveyor is one of options to prevent the box from scratching.
- Clawing type film deliverer: the dual clawing type film deliverer to ensure the stable film feeding and prevent working problem from static.
- One way film feeding unit: this unit is designed by one way bearing to ensure film without rewinding.
- Perforation unit: it can lift the string tab to help user tear the packaging film easily.
- Linking design: worker needs to press only one button to control the packaging speed without complicated adjustment.
- Tearing String Unit & Side Sealing Plate are optional.

Specification:

- Power: 3Ø 220V 50/60HZ
- Machine Dimension: 1911 x 2413 x 1775 (m/m)
- Sealing Bar Length: 3.4 (Kw)
- Packaging Capacity: 15 ~ 40 (Boxes/Min)
- Wrapping Article Specification: L: 50 ~ 290 x W: 40 ~ 178 x H: 15 ~ 80
- Range of BOPP Film Width: Min. Width: 107; Max. Width: 380 (m/m)
- Range of BOPP Film Length: Min. Length: 150; Max. length: 390 (m/m)
- Net Weight: 770 Kgs
