

## Small Scale Automatic Capsule Filling Machine NJP-200

### Main Features:

- Touching-Screen, PLC program control panel with LCD.
- Capsule vacuum positioned mechanism to make the capsule qualified over 99%.
- Removable powder hopper for cleaning and easy auger adjustment easy to change fills weights.
- Easy speed selection and closed capsule length adjustment.
- Electrical Appliance control system approved to CE, and international standard.
- Quick and accurate change part set-up, easy to remove rotary table and ring carrier assembly.
- Fully enclosed dosing stations and rotating table for integration of the whole capsule filling plants.
- Large cam mechanism keeps the rotating table of mold together with the whole equipment running with balance, and completely guarantees the machine operating with highest precision and accuracy.

### Technical Parameter:

Model No.	NJP-200
Capacity	200 capsules/min
No. of Dose/holes of each mold	2
Suitable for Capsule	00#, 0#, 1#, 2#, 3#, 4#
Total Power	3KW
Overall Weight	700Kg
Machine Dimension	730mm. (L) x 950mm(W) x 1700mm(H)
Accuracy	+ 1% Depending upon the consistency, uniformity & bulk density of powder under the controlled level of humidity.
