

Air Rinser For Amber Glass Dropper Bottle

R-XP/A Bottle Air washing machine with the function for removing the dust and dirt that have settled during shipment transfer. The inline nozzles deliver short bursts of clean air into the bottles to removing the static charge on the bottle inner-walls and suspending the contaminants in midair. These contaminants are simultaneously vacuumed out by these nozzles, then the pre-washed bottles can be move into the next filling station.

Application:

Air cleaning systems are commonly used in pharmaceutical industrial as well as some food and pharmaceutical operations to ensure safety.

Specification:

Item	Sepcs
Capacity	80-120 bottle/ min
Air consumption	15 m ³ /h
Air pressure	0.3-0.5kg/ cm ³
Power	2.8KW/H/ 220V/50Hz
Dimension	2400 x 800 x 1700mm
