

SH-series Powder Mixer Powder Blender

SH-series Powder Mixer Powder Blender is widely used in pharmacy, chemical industry, food industry, scientific research, etc. It is suitable for mixing dry powder or granular materials with good flowing properties.

Description

- The SH series mixer is widely used in pharmacy, chemical industry, food industry, scientific research, etc. It is suitable for mixing dry powder or granular materials with good flowing properties.
- As the mixing vat is able to make multidirectional motion, it makes raw materials inside the vat have many cross-mixing points, therefore the mixing effect is better. Its degree of uniformity can achieve above 99.9%.
- The max. loading efficiency can be 0.9 (The loading efficiency of ordinary mixer is 0.4-0.6). The mixing time is short and its efficiency is high. The material is mixed in an enclosed state with no contamination to the working environment and materials.

Parameter

Model	Vat volume (L)	Max. Filling volume (L)	Best Filling volume (L)	Rotational speed (r/min)	Power (kw)	Weight (kg)
SH-100	100	80	50	0-20	1.5	500
SH-200	200	160	100	0-16	2.2	800
SH-300	300	240	150	0-16	3	1000
SH-400	400	320	200	0-16	4	1200
SH-600	600	480	300	0-12	5.5	1500
