

## Full Automatic Hard Capsule Filling Machine NJP-2000, 2500B/C/E

NJP-2000, 2500 series automatic capsule filling machine based on old NJP-2000 series, designed total enclosure turning table for easy cleaning, single movement for both upper and lower segments with two-lip seal provide a much better sealing performance, a combined air blowing & suction function on segment cleaning station ensures cleaning efficiency on high speed, dust-preventing rubber block on capsule discharge station.

### Technical Parameters:

| MODEL                          | NJP-2000B/C/E  | NJP-2500B/C/E         |
|--------------------------------|--|-----------------------|
| Filling dosage form            | Powder、Pellets、Tablet                                      |                       |
| Capsule size                   | Capsule size 00"-5" and safety capsules A-E                |                       |
| Max.Output                     | 120000Capsules / Hour                                      | 150000Capsules / Hour |
| Power supply                   | 380V 50Hz 3.47kw   | 380V 50Hz 3.47kw      |
| Noise                          | ≤75dBA   | ≤75dBA                |
| Vacuum Degree                  | -0.02~-0.06 MPa  | -0.02~-0.06 MPa       |
| Compressed Air (clean segment) | Air consumption : 3m <sup>3</sup> /h Pressure : 0.3~0.4MPa |                       |
| Dimensions                     | 1100×1200×1950mm   | 1100×1200×1950mm      |
| Weight                         | 1360kg   | 1360kg                |
