

## *Automatic Filling And Capping Machine For Spray Pump Cap and Dropper Cap*

This glass dropper bottle filling and capping machine includes the turn table feeding bottle, automatic filling, automatic feeding sprayer pumps (glass dropper), capping, labelling and bottle collection table.

This production consists of bottle feeding table, peristaltic pump filling, feeding sprayer pump (glass dropper), pre-capping, servo capping, labelling and bottle collection table.

### **Specification:**

- Filling volume: 5-100ml
- Speed: 30-40 BPM
- Filling accuracy:  $\geq 99\%$
- Cap feeding rate:  $\geq 99\%$
- Capping rate:  $\geq 99\%$
- Power: 2KW 220V
- Labeling accuracy:  $\pm 1\text{mm}$
