

## BSX-1D Automatic Single Head Capping Machine

This machine consists of cap unscrambling structure, grasping and capping structure, conveying part and control system. This capping machine has the feature of simple structure and easy adjustment which is suitable for capping of large drums.

### Parameters:

Model Name	BSX-1D
Applicable Width	100mm~350mm
Applicable Height	100mm~500mm
Cap Specification	Φ35mm~Φ75mm
Speed	≤900 bottle/hour
Air Pressure	0.6~0.8Mpa
Air Consumption	20L/min
Power Source	AC220V、50Hz
Power	2Kw
Weight	about600Kg
Machine dimension (L×W×H)	1500mm×1800mm×2400mm
