

## *Econocorp – Model Econopacker Case Packer*

The Econocorp Model Econopacker is a semi-automatic case packer that provides a lower cost, first step to reducing labour and automating the case packing process. Typical uses include case packing of all types of multi-packed cartoned, canned and miscellaneous products at speeds of up to 10 cases per minute.

### **Features:**

- Up to 10 cases per minute;
- Sanitary Construction (essentially stainless steel);
- Heavy duty, welded stainless frame;
- 5 foot (1.5M) infeed belt conveyor;
- Collator/Upstacker;
- Product Loader;
- PLC Controls;
- Broad size range;
- Simple and fast size changeover;
- Expandable for further levels of automation;
- Flexibility to run RSC and die cut designs;
- Accommodates both corrugated and paperboard materials.
