

Industrial Mixers For Spice Mixing Machine VI-500

VI Mixer Machine is suitable for the mixing of dry powder and granular materials in pharmaceutical, chemical and food industries. The stirring bar in the mixing barrel can scatter the agglomerated material during mixing, so the machine can also be used for mixing the material containing a certain amount of moisture. This Mixing Machine has the following distinguishing features, no blind angle in the mixing barrel, no accumulation of materials, high speed, and short mixing time.

Technical Parameters:

- Model: VI-500
- Application: Medicine Processing, Chemicals Processing, Food Processing, Powder
- Max. Loading Volume (L): 300
- Capacity(KG/H): 130
- Weight (KG): 620
- Dimension(L*W*H)(MM): 2500*1350*2450
