

ZHTBS02 Front and Back Adhesive Labeling Machine

ZHTBS02 front and back self-adhesive labeling machine is mainly used for double side labeling for rectangular, square bottle and elliptical bottle in foodstuff, cosmetic, pharmaceutical, pesticide, etc. Controlled by PLC and touch screen, this labeling equipment is very easy to operate. Suitable bottle size is 0 to 5 L and labeling speed is 0 to 26 m/min.

Application

Double side sticker labeling machine is suitable for applying body, back, stamp and neck self-adhesive labels on cylindrical or shaped bottles in PET and glass.

Features

1. ZHTBS02 self-adhesive labeling machine can achieve automatic labeling only if there is any bottle in the machine. Besides, it is able to memory more than ten groups of labeling parameters.
2. Labeling equipment adopts servo motor which helps to achieve closed-loop control. Besides, this servo motor has the advantages of low failure rate, high efficiency and fast speed.
3. All the material contacting parts of front and back self-adhesive labeling machine are made of stainless steel which meets the GMP standard.

Parameters

Power Supply	AC220V, 50Hz (or according to client voltage requirement)
Power	3 kW
Labeling Speed Range	0-26 m/min
Suitable Label Roll Inner Diameter Size	Φ75 mm
Suitable Label Roll Outside Diameter Size	Φ350 Maximum
Machine Weight	750 kg
Machine Dimension (L×W×H)	3000 mm × 1200 mm × 1600 mm
Labeling Speed	0-26 m/min
Standard Label Height	0-130 mm
Max Label Height	190 mm
Labeling Precision	±1 mm
