

SK-520/620/720 Vertical Packaging Machine

Applications:

Suitable for packing different kinds of products with different metering devices.

1. Electronic Weighing System
2. Volumetric Cup Metering Device
3. Semi-automatic Feeding Device
4. Auger Filler
5. Liquid Filling and Weighing Device

Feature:

1. Imported PLC and color touch screen, human-machine interface, easy operation, intuitionist and efficient.
2. Separate pneumatic control and power control, noise is low, and the circuit is more stable.
3. Vacuum film feeding device and two synchronous belt devices with servo control system, less film pulling resistance, high orientation precision, and bag design can be kept well. And belt is more durable.
4. External film feeding mechanism. Film setting is easier and faster.
5. Close down type mechanism, defending dust into inside of machine.
6. Works with metering device, it can complete the whole procedure of metering, filling, bagging, date printing, exhausting, counting automatically.

Optional Function:

1. Air flushing system
2. Nitrogen gas flushing
3. Hole punch device
4. Gusset device
5. Tear notch device
6. Linking bag device
7. Flip device
8. PE bag device

Specification:

Model	SK-520	SK-620	SK-720
Air Consumption	0.65Mpa,3M3/min,6kg/cm2		
Packing Film Width	Max 520mm	Max 620mm	Max 720mm
Bag Length	80-350mm	100-400mm	180-450mm
Bag Width	100-250mm	150-300mm	180-350mm
Packing Film Roll Diameter	Max.360mm		
Packing Speed	5-50bags/min		
Packing Film Thickness	0.04-0.08mm		
Power Supply	220V,50/60Hz,3Kw		
Machine Size (L*W*H)	1430x1200x1700mm	1780x1300x1950mm	1800x1310x2050mm
Machine Net Weight	600kg	650kg	700kg
