

SJ-1000II Liquid Packing Machine (Double Line)

Suitable material:

1. It is applicable for packing liquid like milk and soymilk

Characteristic:

1. Double bag jointing packing method
2. Double way valve piston pump filing measuring
3. Film sterilization, liquid sterilization
4. The finished products double jointing bag can fill individually two liquid. It can separate two bags
5. The body and parts touching the material are made of stainless steel.

Technical specifications:

Type	SJ-1000II
Bag making length	40-1230 mm
Bag making width	70-100mm
Packing film width	140-200 mm
Packing capacity	50-250 ml
Packing speed	1100-1300 bag/min
Power	2.6 kw
Overall dimension	850×760×1800mm
Weight	275kg
