

## ZPB-Sauce Packing Machine

We summed up the experiences of years' aluminum plastic packaging machine manufacture, and launch the lathe guide way, steeples stroke ZPB-multi-function sauce packing machine. This machine has the advantages of extending the food life, beautiful product appearance, small in size, high efficiency, small investment, non-pollution, meeting the food hygiene requirements. So, it is the optimal packing machine.

The machine adopts the servo motor, has the flow line of board type mould, positive pressure molding, charging, hot sealing, date print, indentation, blanking.

### Technical parameters:

生产能力 (次/分) speed(time/min)	15-30
成型面积(mm <sup>2</sup> )moulding area	240X160
牵引行程 (mm) Traction stroke	20-160
包装材料packing material	PVC/PS/PET
加热功耗 (kw) power	3
主电动机 (KW) main motor	Y90L-6 1.5
气泵容量 air compressor capacity	>0.2m <sup>3</sup> /min,0.4-0.6Mpa
整机重量 (kg) weight	1600
