

Powder Extrusion Type Automatic Auger Filling Machine CT-260-TA

Applicable Products/

Grain powder, black tea, powder, coffee, milk powder, corn starch, flour, seasoning powder, herb powder and illiquid powder.

Stand Accessories/

Tool box with socket wrench, Hex wrench, Screwdriver.

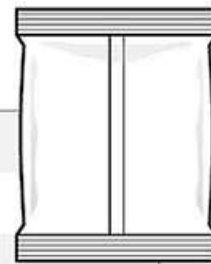

Optional Equipment/

Date coder, Easy tearing device.

Features/

- With touch screen and PLC control system.
- The file pulling mechanism is driven by servo motor with minimum tolerance.
- Easy operation 4 sets of memory provides easy change.
- The machine is designed for pillow type packaging. (back side sealing)
- High weight accuracy with minimum tolerance.
- Employs Germany KT5W photocell sensor for tracing assuring high accuracy sealing and cutting.
- Automatic process : measuring→making bag→filling→sealing→cutting

Specification/

Packing Type	Pillow type packing > > >
Packing Weight	100-1000g
Packing Sizes	W:260-450mm, L:150-290mm
Packing Speed	6-15 bags/min (depend on the contains)
Accuracy	±1~2%
Main Motor	750W
Power Source	220/380 V, 60 Hz 3phase
Heater	Upper sealing 500W x2 pcs, Lower sealing 250W x4 pcs
Machine Dimensions	1200(L)x1100(D)x2700(H) mm
