

Automatic Straight-Through Cuff Assembly Packaging Machine APW-6040D

1. Adopts direct feed, the length of packaging material is not limited, can work independently, and it is convenient to connect the existing production line;
2. Digital temperature control, can accurately control the temperature of sealing tool;
3. Photoelectric automatic detection products, accurate positioning;
4. Thermostatic heating sealing knife, the sealing is firm, beautiful, not easy to stick to the knife;
5. Model no.: APW-6040D
6. Maximum sealing width: 600
7. Maximum product height: 350
8. Power supply: 380V/3ph, 1.5kw
9. Production capacity (package/min) : max.20
10. Suitable for packing type: paper holder or single product
11. Feeding mode: automatic direct feeding
12. Machine size: 1339 * 1070 * 2137
13. Packing size: 1440 * 1200 * 2120
14. Compressed air/air consumption: 6bar,80NL/min
15. Mechanical weight: 460/630
