

SP-230J Automatic Liquid Packaging Machinery

The main performance:

1. The machine adopts back sealing or three-side sealing, with beautiful packaging and high measuring accuracy.
2. The multi-path temperature-control heat sealing mechanism has the characteristics of accurate temperature control, good heat balance, guaranteed sealing quality, and application of various packaging materials.
3. The pump body of the sauce packaging machine uses stainless steel, adopts domestic advanced sucking technology, no pressing and leakage, and the packing volume can be adjusted steplessly within the rated range.

Application scope:

Suitable for packaging fluids, semi-fluid materials such as honey, chili oil, beef sauce, pan cuisine, shampoo, cosmetics, etc.

Performance parameters:

Model	SP-230J
Packing speed	20-60 bag/min
Measuring range	1-250ml
Bag size	L: 30-190mm; W: 20-135mm
Voltage	220V
Power	0.9 KW
Weight	280KG
Dimensions	700* 800*1650mm
