

P1-720 With 14 Multi-head Weigher Packing Machine

P1-720 with 14 Multi-head Weigher Packing Machine is suitable for irregular lumpy and granular materials, such as candy, puffed food, small biscuits, fried dried fruit, sugar, frozen food, hardware and plastic products, etc

Features:

- The frame of machine is made of 304 stainless steel, which meets the hygienic standard of food QS and medicine GMP.
- Equipped with safety protection, meet the requirement of enterprise safety management.
- Adopt independent temperature control system to keep accurate temperature, ensure sealing beautiful and smooth.
- Servo motor pull film, PLC control, touch screen control, ability of automatic control, high reliability and intelligence, high speed and high efficiency.
- Adopt double belt for pull film, pull film system and color label control system can be automatically adjusted through the touch screen, which is simple to rectify the seal and to rectify the gap.
- The touch screen can store the packaging process parameters of many different products, and can be used at any time when changing products.
- Mechanical fault display system can help troubleshooting and reduce manual operation.
- The whole equipment including transported from material, measurement, printing, bag making, filling, sealing, cutting, and product conveying.
- It can be made into pillow bags, pin bags, hang holes bags and even bags according to customers' needs.

Technical Parameters:

Model	P1-720
Max width of roll film	≤720mm
Bag sizes	L:100-480mm, W:150-350mm
Packing Speed	5-50/bags/min
Measuring range	300-5000ml
Packing material	OPP/CPP, OPP/PE, PET/PE, PE
Consumption	6-8kgf/cm ² , 0.15 m ³ /min
Power and voltage	AC380V, single phase, 50-60Hz, 4kw
Total weight	2110kg
Dimension	(L)4105×(W)2457×(H)4350mm
