

KL-420 Large Vertical Auto Packing Machine

Feature:

1. The system can finish automatically all processes, i.e. Feeding, measuring, filling and bag making, printing date, product output.
2. The machine structure is compact, rational, stable performance, easy operation and maintenance.
3. The complete set of the machine is featured with fair price, stable performance.
4. The machine adopts independent mixing system, is able to mix uniformly the material .

Application:

Suitable for micro-power with good flowing property, such as: bean flour, powered milk, flavour, health food etc.

Feature:

1. Side film pulling belt, double position correction by power adjusting film carrier, which keeps even film conveyance and bag forming.
2. Two independent sealing cylinders, excellent airtight, transparent sealing.
3. Applied with PLC, color touchable screen, high auto, operate & maintenance easily. The machine runs smoothly, low noisy.

Equipped devices:

1. Electronic weighing system
2. Semi auto feeding device
3. Spiral type powder measuring device
4. Cup measuring device.

Application

Suitable for packing fragile bulk material with irregular shapes and requiring high measuring accuracy, such as: puffed food, shrimp strip, potato chips, banana chips, apple flakes, crispy rice, biscuit, peanut, cooked seeds, sweets etc.

Tech data:

Type	KL-420
Bag sealed type	Pillow bage , gusset bag , hole bag
Max. Film width	460mm
Bag length	80-300mm
Bag width	80-220mm
Measuring range	2000ML
Packing speed	Max 55bag/min (depend on the bag length)
Power supply specification	220V,3KW
Total weight of machine	650kg
Machine size	(L)1800*(W)1200*(H)1900mm
