

Y-FANG SEALING MACHINE

Automatic Vacuum & MAP Sealing Machine-ET-55

Application:

1. Food packaging for restaurant, shop, supermarkets, household, and food processing plants.
2. Can be used for frozen, cold or fresh food, as well as any product which can be put in a container, such as microwaved food, preserved foods, cold/hot food, agriculture products, dry food, cosmetics, medicine, or plastic items.

Features:

1. Cutting attachment (trims seal edge up to 2mm).
2. Easy-to-move lockable trolley design.
3. Rigid structure made from stainless steel and corrosion resistant aluminum, ensure the highest food hygiene standard.
4. Simple design promotes easy maintenance.
5. Touch screen display with PLC control system provides a user-friendly interface.
6. Very safe operations due to multiple impact resistant acrylic panels.
7. Suitable for many material (PE, PP, paper, and easy tear film).
8. Digitally controlled vacuum and gas flushing.
9. Can handle between 6-10 seals per minutes, depending on vacuum settings.
10. Quick change mold design allow for one machine to seal various sized container for improved efficiency.
11. Multi-functional setting are available for increased productivity.
12. Mechanical chain conveyor and indexing for fast positioning.

Specification:

Model	ET-55MS1GF	ET-55LS2GF	ET-55MS1VGF	ET-55LS2VGF
Machine Size(mm) WxDxL	1000x2000x1450	1200x2000x1450	1200x2000x1450	1200x2000x1450
Power	220V	220V	220V	220V
Capacity (psc/hr)	420	840	320	600
Max.Cup Size(mm)	400x170x100	285x140x100	400x140x100	285x140x100
