

Dolce Gusto Coffee Capsule Packing Machine CP3001D

- The machine is also suitable for filling capsules of different specifications.
- The filling period is short and the production capacity is high.
- Highly automated, mass production.
- Users can choose the filling number according to their own production capacity to determine the number of filling heads.
- The touch operation screen, man-machine interface, can show the production status, operation procedures, filling methods, and so on.

Introduction:

- CP3001D is in the CP30 series, the same premium quality machine. The machine can be used to produce Dolce gusto coffee capsules, cut the film twice, and heat seal twice.
- Adopt European advanced accessories and PLC touch screen control system.
- Servo drive, so that the filling accuracy is very accurate.
- Screw metering, pneumatic propulsion machine working.
- It is an ideal machine for entrance production that:
- Small in size, 2000x700x2600mm (height including air conveyor).
- Reliable working to continually packing 1200-1500pcs per hour.
- Ideal price to lower the budget.
- Its packed capsules are as good as other CP30 machines with excellent accuracy and nice sealing.

Technical parameters:

Model	CP3001D
Suitable Product	Coffee, chocolate, tea etc.
Suitable capsule	Dolce Gusto compatible capsule
Suitable sealing	Roll type foil
Capacity speed/hour	15-20 pcs per minute
Filling range	3-20g (adjustable by customer)
Accuracy	±0.1 grams
Standard Power	3 phase 220V @ 50/60hz - 3kw
Installed size (LxWxH)	2050mm*670mm*2600mm (height 1800mm without air conveyor loader)
Air requirement	≥0.8Mpa / 300L per minute
Required Temp	5-35°C
Required Humidity	≤85%
