

Full Automatic Rotary 3 in 1 5 Gallon Water Filling Machine For Pure / Mineral Water QGF-series

1. Barrel Water Filling Line is made of great stainless steel which is corrosion resistant and easy cleaning.
2. All the pneumatic parts are from the famous brand AIRTAC. Both the inner and outer shower nozzle for washing barrel adopts the special technology equipment from American Sprayer Company.
3. The machine works reliably and efficiently based on the compact structure and high automatic technology. It is a fully automatic barreled water producing equipment combined with machine, electronic and pneumatic components.

Specifications:

Application	Potable Water, Mineral Water, Purified Water, Pure water, distilled water, mountain spring water, etc.
Suitable bottle	PET, HDPE, Plastic bottle, PC
Bottle Type	18.9L, 19L, 3 Gallon, 4 Gallon, 5 Gallon
Suitable cap type	Gland Pressing Capping
Supply Capacity	100 to 2,500 bottles per hour(18.9L)
Filling style	Micro pressure filling by mechanical valve
Filling Temperature	ambient
Voltage	220/380V
Automatic Grade	Automatic
Driven Type: Electric	Electric
Material:	High quality SUS304/316 stainless steel
After-sales Service Provided	Engineers available to service machinery overseas
