

Hot Melt Bottle Wraparound Horizontal Case Packer WJ-LGB-12

Automatic wrap Around packaging machine was put in the bottles on the board according to the cardboard crease automatic forming of packaging equipment, integrating opening box, packing, sealing, which integrates automatic carton packing equipment, occupy small I, high efficiency, energy conservation, environmental protection, etc. Suitable for cardboard wrapping, which can effective reduce the cost of carton. Suitable for high speed packing production requirements, greatly improve the production yield.

Specifications:

Type	WJ-LGB-12
Power supply	220/380V, 50/60HZ, 10KW
Air pressure	0.5-0.7MPA
Machine size	L5000-6000*W2200*H2000mm
Carton size	L200-500*W150-500*H100-350mm
Packing speed	10 cases/min
Glue solidify time	2-3 s
Height of Platform	650+-50mm
PLC	Siemens
Touch screen	Siemens
Optoelectronic switch	P+F
Electrical magnetic valve	AIRTAC
Pneumatic element	AIRTAC /SMC/ FESTO
Hot Melt system	NORDSON
