

Rotary Liquid Packing Machine RTY-10S-LQ

Feature

- It is applicable for packing sauce or condiments.
- It is manufactured in Washdown Structure for easy management and cleaning.
- The Bag Supply Conveyor has been designed in a way to transport and disassemble bags with ease.
- It is applicable for both flat and stand-up pouch bags.
- You can change the default settings and the control settings for operations with ease on the touch screen.
- A simple change in the supply unit allows you to pack products from liquids, powder to solid matters.
- The specifically designed Bag Clamping device demonstrates stabilized clamping performance even under high load and high speed.
- The adoption of No-Bag-No Fill-No Seal System Bag achieves stability in production.
- The device that retains the open state of a bag allows stabilized bag transport and filling.

Contents

Solids, liquids of low viscosity, liquids of high viscosity, solid matters (gomtang (beef broth), jjajang (black soybean paste), ready-made pouched curry and so on.)

Packing material

AL+PE, OPP+PE, NY+PE, Other relevant packing papers with 3 sides sealed available for thermal sealing

Specification

Packing row	5 Row
Capacity	100~150 EA/min (on 5 row)
Date printer	Jet Printer & Others Date Printer Option
Packing size	W : 20~150 × L : 20~200mm (option)
Filling capacity	20~300g (option)
Power consumption	Domestic : 220/380V×60Hz - AIR 5 ~ 7 Kw/h
	Overseas : 220/380/440/50×60Hz - AIR 5 ~ 7 Kw/h
