

KV-320JD/420JD/520JD/720JD Rotary Lobe Pump Filler Packing Machine

Features

- More than 20 languages can be chose, parameter and function setting convenient with touch screen.
- PLC intelligent control system, operation more steady without stopping machine.
- Double frequency converter control, bag length can be set and cut at one step, saving time and film.
- Self-diagnose function, all the fault will be display on the screen, easy to maintenance.
- High sensitivity photoelectric eye color tracing, number input of bag size, cutting position accurate.
- Temperature independent PLC control, more suitable for packing different materials.
- Positioned stop function, without sticking knife or wasting film.
- Simple driving system, reliable working, convenient maintenance.
- All control is realized through software, easy for function adjusting and technical updating.
