

Water Filling Bottling Machine CGF18-18-6

Our newly designed CGF serious monoblock water filling machine is designed for plastic bottle filling, it can suit for PET bottle size between 150ml to 2000ml, can customized to maximum of 3000ml. Genus design of capping design makes different screw cap change into one simple easy torch. On machine surface is only leaving 3 points of bearing support point which makes drainage so easy and without any dirt stain.

Description:

- Electric saving
- Precise filling level
- 99.9% yield
- Easy changing for different design bottle
- Speed adjustable

Technical parameters:

Model	CGF18-18-6
Capacity (B/H)	6000 BPH (500ml)
Suitable Bottle Size	150- 2000ml
Water Pressure	0.18-0.25Mpa
Water Consumption (kg/h)	1500
Washing Valves	18
Filling valves	18
Capping Heads	6
Filling Precision	<+5MM
Air Pressure	0.5Mpa
Air Consumption	0.3m3/min
Power (kw)	5
Weight (kg)	4000
Dimension (l*w*H)	2700*2100*2100 rmm
