Vertical Packaging Machine SN-420/520/720/820

It's suitable to use in packing the high accuracy and easy fragile material, such as: puffy food, crispy rice, jelly, candy, pistachio, apple snices, dumpling, and chocolate, pet food, small hardware, medicine, etc.

Feature:

1. PLC control with stable, reliable biaxial high accuracy output and color touch screen, bag-making, measuring, filling, printing, cutting, finished in one operation.
2. Separate circuit boxes for pneumatic control and power control. Noise is low, and the circuit is more stable.
3. Film-pulling with vacuum double belt: less pulling resistance, bag is formed in good shape with better appearance, belt is resistant to be worn-out.
4. Double servo control, high precision orientation, size more nicely.
5. External film releasing mechanism: simpler and easier installation of packing film.
6. Adjustment of bag deviation just needed to be control the touch screen. Operation is very simple.
7. Close down type mechanism, defending powder into inside of machine.
