

PGS-180SZ Horizontal Premade Packaging Machine

Equipped with servo motor filler, horizontal premade powder packaging machines could realize high filling accuracy, fast packing speed, easy to operate and adjust. It is widely applied in Pharmaceutical, food, Daily chemical etc. industries all over the world like United State, Europe, Southeast Asia, South Africa etc. with CE certification and tech. Patents.

The filling system is just for your reference. We will offer you best solution according to your product mobility, viscosity, density, volume, dimensions etc.

A. Powder Packing Solution

Servo Screw Auger Filler is specialized for powder filling such as nutrients powder, seasoning powder, flour, medicinal powder etc.

B. Liquid Packing Solution

Piston Pump Filler is specialized for liquid filling such as water, juice, laundry detergent, ketchup etc.

C. Solid Packing Solution

Combination multi-head weigher is specialized for solid filling such as candy, nuts, pasta, dried fruit and vegetable etc.

D. Granule Packing Solution

Volumetric Cup Filler is specialized for granule filling such as chemical, beans, salt, seasonings etc.

Technical Parameter:

Modle	Pouch Size	Filling Capacity	Packaging Capacity	Power	Air Consumption	Machine Dimensions	Weight	Function
PGS-180SZ	90*110mm	1200ml	40-60ppm	8Kw	200NL/min	L:6450mm	2300	Doy pack, Shape, Hanging hole
	(Min)							
	180*260mm					W:1100mm	Kg	
	(Max)					H:1400mm		
Name	Horizontal premade packaging machine
