2. When the operator cannot keep awake due to drinking or fatigue, it is strictly forbidden to operate, debug or repair. Untrained or unqualified personnel are not allowed to operate the Hot Seller Chili Sauce Packing Filling Machine

Hot Seller Chili Sauce Packing Filling Machine composition

The Hot Seller Chili Sauce Packing Filling Machine is a cavity structure, which is composed of an upper vacuum chamber, a lower vacuum chamber and a sealing ring placed between the upper and lower vacuum chambers.

The upper and lower vacuum chambers of the Hot Seller Chili Sauce Packing Filling Machine are generally processed by aluminum alloy casting, or the stainless steel sheet is welded or flattened after being folded or molded, and the upper and lower vacuum chambers are respectively made of aluminum alloy and stainless steel. The aluminum alloy has a common alloy and an aluminum-magnesium alloy, and the latter is resistant to acid and alkali and corrosion, but the cost is high.

Technical Parameter:

Model	TJ-280J
Packing range	10-350ml
Packing speed	30-50 bags/min
Making bag size	L50-280mm, W15-130mm
Packing accuracy	$\leq\pm 1\%$
Air Consumption	0.8Mpa,0.3m ³ /min
Power	1.6 KW
Seal Type	3/4 sides seal,pillow seal
Power supply	1 Ph,AC220V, 50/60Hz
Net Weight	300kg
Machine dimension	L800*W680*H1950mm
