

IN-100SJ/4T Volumetric Nylon Tea Bag Packing Machine

Quantitative bag packaging of round tea granular and short strip materials such as green tea, black tea, scented tea, flower nectar, health tea, Chinese herbal tea, coffee, etc.

The advantages of pyramid tea bag package:

1. After brewing in hot water, there is enough space for the original tea, herbal tea, ginseng tea, fruit tea, etc. to fully develop and maintain the original flavor of tea, natural fragrance
2. Can be brewed for many times, for a long time, without damaging the tea bag
3. Transparent packaging materials allow consumers to directly see the tea raw materials, so that they can use it with confidence
4. The filter material is subject to third-party food safety inspection, safety and health green tea, black tea, scented tea, health tea, Chinese herbal tea, coffee and other broken tea and tea granules quantitative bag packaging

Performance characteristics:

1. Tea bags ultrasonic sealing cutting, batype appearance and strong sealing, large brewing space
2. Electronic weighing automatic weighing, you can adjust the weight of the package. easy to replace the packaging materials
3. Using programmable control, touch screen operation, more stable performance, simpler operation
4. Equipped with SMC pneumatic components. Schneider and other low-voltage electrical appliances to extend the life of the machine
5. The use of electrical integration, replacement date without stopping/shutdown
6. The use of high-precision electronic sensing measurement to make the packaging more accurate

7. Packaging capacity: QY-100SJ/4T 2400-3900 b/h, QY-100SJ/6T 2700-4200 b/h
8. Hanging line tea bags and wireless tea bags can be realized simply by reladng packaning materials
9. The triangular three-dimensional bag and rectangular flat bag production process only one key conversion

Technical Parameter:

Model NO.	IN-100SJ
Measurement range	1-10^(g)
Measurement accuracy	±0.15g(Determined by packing material)
Produce speed	(40-65bags/min)
Packing Material	Nylon material imported from Japan, non-woven fabric 100% biodegradable transparent materials, PET.PLA, etc
Measurement method	4 weighing batchers
Roll width	120,140,160(mm)
Bag size	120mm (48*50mm) 140mm (56*58mm) 160mm (65*68mm)
Roll outer diameter	w400mm
Roll inner diameter	76mm
Air pressure	>0.6Mpa(The gas will be supplied by the buyer)
Control person	1
Power	1Kw(220V 50/60HZ)
Dimension	L1250xW800xH 1800(mm)
Weight	500Kg
