

## *FC Bag-clamping Weighing Packing Machine*

FC bag-clamping weighing packing machine is suitable for powder, granule and particles filling. The machine adopts two-speed screw feeding speed, pneumatic clamping automatic bag, electronic weighing filling. FC bag-clamping powder weighing packing machine can achieve high-precision automatic quantitative, automatic filling.

Suitable for the weighing and filling of various powdery and powdery mixed materials, such as: fertilizer, additives, flour, milk powder, washing powder, solid beverages, sugar, monosodium glutamate, compound seasonings (such as spicy fresh), natural seasonings, enzyme preparations, feed and other powder (micro-powder, ultra-fine powder), powder and granular materials mixed filling quantitative filling.

### **Features:**

- Foot switch control cutting
- Suitable for weighing and filling various bottles, cans and bags
- Weighing display adjustable indexing value to meet a variety of precision needs
- All stainless steel, equipped with feeder can achieve automatic level control

### **Technical Parameters:**

- Filling motor: stepper motor or servo motor
- Measuring range : 1 kg - 6 kg
- Accuracy error :  $\pm 0.3\%$
- Packing speed : 6-12 bags/minute
- Dimensions : Length  $\times$  width  $\times$  height (690  $\times$  1060  $\times$  1900) mm
- Power and Power : AC380 50HZ·900W
