

Link-240YX Automatic Filling Packaging Machine

Performance and features:

1. Can automatically complete filling, measuring, bag-making, sealing, cutting, counting, hot pressing batch number and other work in the packaging process, photoelectric and calibration position need not be adjusted.
2. Intelligent control system, Chinese and English LCD screen. Only setting parameters can accurately control the operation of the system.
3. The heat sealer evenly controls the heating of the bag edge, and the upper and lower sides can be individually adjusted.
4. Replace tool bags, all kinds of different shape can be hold waste recycling device, can often time qing was a waste, saving time, combined with double pull round bag bag, make bag more smoothly, the bag is more beautiful, cut bag stable and reliable BuKa bag, simple operation, configurable color type code printer, for batch number, expiration date, etc.

Technical Parameters:

Model	Link-240YX
Packaging form	Special-shaped bag
Dose range	0.5-30ML
Bag size	L:30 ~ 180 mm W: 25 ~ 60 mm
Packing speed	30-70 packets/min
Control system	PLC control system
The power supply	220V 50Hz
Power	1.4KW
The weight of the	300KG
Size	L1100*W800*H1800 mm
