

Model DXDW120 Envelope Packing Machine for Double Chamber Tea Bag Machine

The Model DXDW120 is an automatic envelope packing machine. DXDW120 puts teabag into envelope packing solutions. Our company respond to market demand for envelope packing machine which is connected to the other teabag packing machine, the DXDW120 offers teabag sealed into envelope to suit customer's demands. The individual envelope offers a way to improve the filter bag's moisture proof refreshment. The printing of envelope has been designed to meet the requirements of our customers

Characteristics

- ◆ Safety Protection: Short circuit protection, overload protection, leakage protection.
- ◆ Grouped tea bag output device.
- ◆ Various heat sealable laminated materials (Plastic / P.E, Plastic / Foil / P.E).
- ◆ Perfect tea bag performance.
- ◆ Provide Servo and PLC control system, touch screen display, operating easily.

Technical data

Machine speed	Max. 120 bags/min
Filter bag maximum volume	10 cm ³
Envelope size	70mm(L) × 80 mm(W)
Power required	Single phase, 220V, 50HZ
Overall size	1680mm(L) × 1285mm(W) × 1230mm(H)
Weight	500kg
Operator	1
Option	Date printing device
