

CK-280BY-4 Multi-lane Ketchup Sauce Sachet Filling Machine

Multi lanes sauce sachet filling machine can produce multi lanes bags at same time, suitable for many kinds of liquid or paste products, such as tomato ketchup, honey, chili sauce, oil, hot sauce, paste, ice popsicle, cream, shampoo, etc.

- Machine main function: Automatic split film at right position, liquid measuring and filling, multi lanes bag form fill seal, cutting, sensor tracking, counting capacity.
- Other function: Emergency stop, set capacity to auto stop machine, count capacity and zero the count, ready bag output, manual test machine each step etc.
- Stainless steel contact part and the machine outer shell, high feature for liquid running environment.
- High precision photocell sensor for auto tracking the eye mark printing on the film roll, so cut each bag at precisely position.

Technical Data

Model	CK-280BY-4
Voltage	220V,50Hz,single phase
	(could be customized)
Power	3.5kw
Packing list number	4
Packing speed	Single column Max. 35 packs/min
Packaging size	Length: 50-180mm width: 17-30mm
Film width	Maximum 280 mm
film thickness	0.05-0.1mm
Dimension	1385*918*2005mm
Weight	350kg
Materials	304 stainless steel
