

ST-6030 Automatic PE Film Sleeve Wrapping & Shrink Packing Machine

ST-6030 series sleeve wrapping shrinking machine applicable to those products need counting and lining and auto shrinking such as easy-open tin can, glass bottle, beer, mineral water etc. It includes automatic packing machine and shrink tunnel. Film Packing Machine is equipped with transducer, which can adjust various speeds for packing bottle water. It can save cost and assure the packing quality. The cutting system abides by international rules and with best sealing quality.

The machine adopts advanced touch screen system, programmable logic controller (PLC).

Technical Parameters

Model	ST6030AF	ST6030	ST-6040 tunnel
Voltage/Power	220V	220V 1.8KW	380V 24KW
Heater Power	2KW		
Capacity	8-12CARTON/MIN	6-12CARTON/MIN	0-12M/MIN
Packing Size(L*W*H)	L500*W300*H300MM	L500*W300*H300	W600*H400*L unlimited
Height and lenth of conveyer	850±50mm /2000mm		
Suitable film	PE POF PVC	PE POF PVC	PE POF PVC
conveyor width	100mm	300mm	600mm
Gross weight	600KG	350KG	380KG
Machine Size (L*W*H)	3840*1000*1950mm	1029*830*1950mm	3000*970*1400mm
