

## *Multifunctional Folding Packaging Machine HTL-260*

Variable frequency speed regulation, computer photoelectric color code automatic tracking;

It has the function of automatic feeding, which can realize the packaging line, mountain bag or bag brushing and sealing;

It has the advantages of simple operation, novel structure, small size, stable operation, few faults, convenient maintenance and so on.

### **Scope of application:**

It is suitable for folding packaging and other packages of articles within the scope of article specifications, such as moon cakes, camphor pills, chocolate, etc.

Suitable for folding and packaging of items within the specification of the item, such as moon cake, mothballs, chocolate, etc.

### **Technical Parameters:**

<b>Model</b>	<b>HTL-260</b>
Products size	(L)30-80x(W)30-80x(H)8-50m
Fim width	130-260mm
Packing speed	25-30 bag/min
Voltage	220V,50Hz
Power	0.5kw
Dimension (LxWxH)	650x800x1200mm
Weight	128kg
